

# 100-foot solar-powered container for sale

## Overview

---

What is a 40 ft container home with solar panels?

The 40' Off Grid Container Home with Solar Panels is designed to be versatile and customizable. You can use it as a cozy home, a vacation home, a backyard office, or anything in between. Its modular design allows you to add more containers to expand your living space. The home also has large windows to provide ample natural light and ventilation.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.
