The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action including calculating carbon footprints, setting reduction targets, implementing reductions, financing climate projects and communicating transparently to continuously.

Waterproof inverters convert DC power to AC power. They also come with a protective casing, and as such, they are ideal for use in boats and cars. These inverters are primarily used in solar applications. They isolate the sourced generators from the grid. They also help battery charging and enable.

A marine inverter converts your boat's DC battery power into AC power, allowing you to run appliances like laptops, microwaves, or televisions while away from shore power. How is an inverter charger different from a standard inverter?

An inverter charger combines two functions: it powers your AC.

We also stock top-quality Samlex boat inverter systems, Magnum energy inverters and more than 30 high-end Mastervolt inverters and chargers, all at discounts from list prices. Here at Hodges, we carry the very best marine-grade power inverters on the market. Hodges Marine brings you a premium.
