What did the energy storage rulemaking entail?

This rulemaking identified energy storage end uses and barriers to deployment, considered a variety of possible policies to encourage the cost-effective deployment of energy storage systems, including refinement of existing procurement methods to properly value energy storage systems. This rulemaking resulted in two CPUC Decisions, which are:

What did the CPUC request for SCE's energy storage solicitation?

It also requested the CPUC to direct an electrical corporation serving the Los Angeles Basin to procure through a competitive solicitation a minimum of 20 MW. Resolution E-4937 approved SCE's energy storage solicitation to comply with SB 801.
