

# Acra Bay New Energy Storage Project

## Overview

---

The proposal to transform the historic Morro Bay power plant into a cutting-edge clean energy storage facility has been paused. This decision has stemmed from concerns voiced by the local community, environmental groups, and regulatory bodies about the potential impacts of the project.

The proposal to transform the historic Morro Bay power plant into a cutting-edge clean energy storage facility has been paused. This decision has stemmed from concerns voiced by the local community, environmental groups, and regulatory bodies about the potential impacts of the project.

By some criteria, 1290 Embarcadero in Morro Bay, Calif. seems like a prime site for a facility to store renewable energy. This swath of coastal land houses a power plant that was shuttered a decade ago and its still standing smokestacks. Vistra Corp.'s proposal for a 600-megawatt battery storage.

ON APRIL 4, 2025, VISTRA SENT THE CITY A LETTER WITHDRAWING ITS APPLICATION FOR CITY ENTITLEMENTS TO CONSTRUCT A BESS FACILITY AT THE FORMER POWER PLANT PROPERTY IN MORRO BAY. The City cannot attest to the accuracy of this analysis and will hire a land use economics consulting firm to peer review.

Plans to transform the Morro Bay Power Plant property into a massive battery storage facility are in peril with the California Coastal Commission now critical of the project. Vistra, a Texas-based energy company, has plans to construct and operate a 600-megawatt battery storage facility on.

- A California lawmaker is calling for an end to the Morro Bay battery energy project following a fire at a lithium battery storage facility in Moss Landing, operated by Texas-based Vistra Energy. The City of Morro Bay has been collaborating with Vistra since 2020 on a proposal to transform the.

Thank you for your continued service to the community and your engagement with Vistra Corp. regarding our proposal to reinvest at the retired Morro Bay Power Plant site. In 2020, we filed a development application that proposed to reuse a small portion of the site, adjacent to critical transmission.

The proposal to transform the historic Morro Bay power plant into a cutting-edge clean energy storage facility has been paused. This decision has stemmed from concerns voiced by the local community, environmental groups, and regulatory bodies about the potential impacts of the project. Residents in. When will the Morro Bay Battery energy storage system (BESS) project be reviewed?

The Draft EIR for the Morro Bay Battery Energy Storage System (BESS) project was available for public review and comment from March 11 through May 28, 2024. This 79-day public review period exceeds the 45-day review period required under the California Environmental Quality Act (CEQA).

Will Vistra power a 600-megawatt battery storage project?

Vistra Corp. is planning a 600-megawatt battery storage project on a portion of the site. The proposal includes remediating the entire area and removing the plant and stacks, readying the land for future development. The site's history as a power plant means it's well-positioned to connect to existing transmission lines.

Is Morro Bay preparing a project EIR?

The NOP has been prepared to notify agencies and interested parties that the City as Lead Agency is preparing a Project EIR pursuant to the California Environmental Quality Act (CEQA) for the proposed 600-megawatt (MW) Morro Bay Battery Energy Storage System Project. The NOP also includes the Project Description and date of the Scoping Meeting.

Where can I find information about the battery energy storage system (BESS) project?

Applicant Information: In an effort to provide more information regarding the proposed Battery Energy Storage System (BESS) project, Vistra has created a website for their project that includes project information and frequently asked questions (FAQs).
