LONGi, FOX, Jinko, Vertex, Solis - Let the sun's energy into your home! When purchasing solar stations, water heaters, inverters with installation, delivery is free. We provide free warranty service for all installed solar stations. For wholesale buyers we have a flexible system of discounts.

Last month, our technical team completed the commissioning of a 14kW solar storage system for a private residence in Yerevan, Armenia. This project focused on providing a stable power supply in a region that experiences both high solar gain and significant seasonal temperature drops. The homeowner.

Off-grid systems are a viable alternative for electricity consumers in areas lacking a legislative framework for power transmission to the grid. These systems offer distinct advantages over on-grid systems. Firstly, they can function autonomously or act as backup power sources in case of outages.

Solarm presents its solutions in the field of solar energy, which will help save electricity and reduce electricity consumption. Our range of services includes: customer demand assessment, solar power plant planning and design, Solar electric station installation, warranty and post-warranty.

In 2014, the government launched the Scaling Up Renewable Energy Program for Armenia (SREP Armenia) as part of its commitment to promote renewable energy sources. This new program serves as an update to the Renewable Energy Roadmap that was launched in 2011. It specifies the targets for the.

Are used in places where there is no grid available. They are equipped with batteries to accumulate the excess of generated electricity and supply it to the consumer devices when generation is insufficient. Are used in places where there is no grid available. They are equipped with batteries to.
