The government had budgeted €12 million (\$14 million) for a second funding round but wants to finance successful applications and bring 220 MW new solar and 200 MWh of storage online. A second call for subsidy applications for solar and storage in Austria – held from June 23 and July 7 and with a.

Austria's latest subsidy round for solar and storage has sparked overwhelming interest, highlighting how quickly demand for clean energy technologies is accelerating across Europe. The government had initially set aside €12 million for the second round of 2025 funding but was forced to nearly.

The 'Made in Europe' bonus will come into effect from 23 June 2025. Image: EVN/Daniela Matejschek. The Austrian Ministry of Economic Affairs and Energy has announced a "Made in Europe" bonus of 20% to government funding for PV and energy storage projects that use components made in Europe. The.

The Austrian Ministry of Economic Affairs and Energy has announced a new incentive to bolster the domestic solar and energy storage sectors. Effective from June 23, 2025, a "Made in Europe" bonus of 20% will be applied to government funding for photovoltaic (PV) and energy storage projects.

NGEN commissioned Austria's largest battery energy storage system (BESS). It installed it in record time – just seven months. Located in Fürstenfeld, in the

country's southeast, the facility has 24 MWh in capacity and a maximum output of 12 MW. The successful endeavor is part of the company's.
