

Automatic Folding Container Type for Subway Stations

Overview

Platform screen doors (PSDs), also known as platform edge doors (PEDs), are used at some train, rapid transit and people mover stations to separate the platform from train tracks, as well as on some bus rapid transit, tram and light rail systems.

Platform screen doors (PSDs), also known as platform edge doors (PEDs), are used at some train, rapid transit and people mover stations to separate the platform from train tracks, as well as on some bus rapid transit, tram and light rail systems.

As a platform screen door manufacturer, STANLEY Access Technologies is a reliable and innovative choice for increasing both safety and efficiency at transit stations. If you're working on a tram, train, or any other type of station for public transit, we can design and build the perfect platform.

YUOU (LUOYANG) DOORS AND WINDOWS TECHNOLOGY CO., LTD. Company Info. Basic Info. Model NO. Industrial folding door is often used when the top of the door and the space on both sides are insufficient. It is applied to not only small workshops , warehouses, garages, etc., but also to the ships.

Folding containers come in various types such as different sizes and folding methods. This device can automatically identify various folding types that are input in random order and perform automatic folding according to the type. It consists of a container input conveyor, a folding device main.

COLLAPSECON is the next evolution of shipping containers – a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry or global.

Many years of experience combined with the latest engineering expertise make BATOR a valuable partner when it comes to functional and reliable doors for public transit services. AUTOMATIC FOLDING DOORS FOR LIGHT RAIL, BUS AND TRAIN DEPOTS BATOR automatic folding doors for public transport services.

For transportation terminal applications, we offer the following types of door solutions: Not Sure Which Door System Is Right For Your Application?
