

Base station power module repair

Overview

This is a guide to fix base station 2.0.

This is a guide to fix base station 2.0.

To resolve issues with a faulty base station, powercycle it by turning it off and then on again. This can help reset any communication failures. In SteamVR, navigate to Settings > Base Station and select "Recover from Incomplete Update". If the issue persists, try moving the base station closer to.

This is a guide to fix base station 2.0. Show more. Score the front plastic. Use the soldering iron to cut part of it until you can open it with pliers. The top piece has a slop ramp and it is hard to get off. Use a T8 screwdriver to remove the four screws that are marked with a blue circle. It is.

This device is made under license under one or more of the following US patents: 4,590,473; 4,636,791; 5,148,482; 5,185,796; 5,271,017; 5,377,229; 4,716,407; 4,972,460; 5,502,767; 5,146,497; 5,164,986; 5,185,795; 5,226,084; 5,247,579; 5,491,772; 5,517,511; 5,630,011; 5,649,050; 5,701,390;.

If you still have the base station under warranty, no need to panic, this can happen, you just contact Valve/HTC support (depending where you bought it from) and they will offer you a replacement. Of course you will have to ship your broken station first, they will evaluate and then send you a.

We are a team of electrical engineers and technicians who remanufacture automotive electronics. When your ABS light comes on, or your temperature controls stop working we can help. If the mechanic quotes you a high replacement cost, or you just can't find the part anymore check out our website for.

If your HTC Vive Base Station 1.0 is blinking red, the first thing to try is unplugging it and plugging it back in, then reinstalling Steam VR and if that doesn't help, rolling back the firmware on the base station can resolve the problem. For me this did get rid of the blinking light, but the base.
