The Government of Brunei Darussalam has broken ground on the 30MW solar PV power plant in Kampong Belimbing, the country's largest solar facility to date. Built on a 332,900-square-meter former landfill site in Kampong Belimbing, Mukim Kota Batu, the plant will generate over 64,000MWh of clean.

Brunei's largest solar photovoltaic power plant (SPVPP) with a 30-megawatt (MW) capacity in Kg Belimbing is slated to launch by the end of 2026, following a groundbreaking ceremony on August 11. Located on a remediated landfill site spanning 32.29 hectares, the plant will generate 64,440.

Brunei is set to develop a 30-megawatt (MW) solar power plant, marking a significant step forward in the country's renewable energy ambitions. The project will be led by a newly formed joint venture, Seri Suria Power (B) Sdn. Bhd., which will oversee the construction and operation of the facility.

Brunei has announced the development of a 30 MW solar power plant in Kampung Sungai Akar, a major project set to boost the nation's renewable energy capacity. This initiative is part of Brunei's broader goal of generating 200 megawatts (MW) of solar energy by 2025 and reducing its reliance on.
