

Bulgarian Folding Container Hybrid

Overview

These houses are a hybrid of a traditional house and a shipping container. They feature a functional centralized unit with two detachable sections that provide extended storage capacity and double the overall space.

These houses are a hybrid of a traditional house and a shipping container. They feature a functional centralized unit with two detachable sections that provide extended storage capacity and double the overall space.

Production of multifunctional modern and contemporary models of containers with different visions. Production of one-storey and two-storey modular houses, equipped with kitchenette, WC and shower. Various models of offices, shops, restaurants, pharmacies, clinics, showrooms, sports grounds and.

Container house is this new type of living model, which not only has the advantages of mobility, short construction period, low cost, environmental protection, rugged and durable, but also can be customized and expanded according to individual needs. The 40ft Folding Apartment is a durable and.
