Unlike competitors who make resale and add warehouse-related costs, we shorten the supply chain. Thanks to an Italian team of experts you will be accompanied.

Whether for shipping, on the construction site or in the warehouse - solar module containers offer reliable protection for photovoltaic modules and optimize the entire logistics process. They protect the modules from damage, moisture and dust, save time during handling and enable efficient B2B.

The Italian Ministry of the Environment and Energy Security (MASE) has introduced some “non-price criteria” for the second tender within the “Fer X Transitorio” program. The tenders will focus exclusively on photovoltaic systems, with the planned capacity to be allocated being 1.6 GW, with the aim.

We have decided to directly and independently manage the recycling of photovoltaic modules. Of course, we will not deal with our panels for at least 30 years, but we will turn the panels we have put on the market so far into a resource. We will test panels that can still be efficient in countries.
