

# Can I bring a portable power bank to Southeast Asia

## Overview

---

Can I bring a power bank on a SIA flight?

Power banks must be carried in cabin baggage on all SIA flights and are not allowed in checked baggage. Passengers can bring power banks with a capacity of up to 100 Wh without needing special approval. However, power banks between 100 Wh and 160 Wh require prior airline approval. This policy also applies to Scoot.

Can I bring a power bank on AirAsia flights?

Yes, you can bring a power bank on AirAsia flights. However, there are specific restrictions regarding their capacity. Power banks are considered lithium-ion batteries, which can pose a fire hazard in certain conditions. Airlines restrict the capacity of these batteries to ensure safety during flights.

Can you take a power bank on a plane?

Here are the general rules to follow: Most airlines allow power banks below 100Wh (watt-hours) to be carried onboard without prior approval. Power banks between 100Wh and 160Wh usually require airline approval before you board. Power banks over 160Wh are typically banned from flights altogether.

Are power banks safe on Air Busan?

Recent news about a fire onboard South Korea's Air Busan flight has sparked renewed concerns over the safety of power banks during air travel. Following the incident, several airlines have tightened their restrictions on portable chargers, with Air Busan banning them completely.
