

# China solar power to battery in Mauritania

## Overview

---

A \$289.5 million financing package from the African Development Bank and the Green Climate Fund will support two major projects that aim to develop solar power generation, transnational electricity interconnection and rural electrification in the country.

A \$289.5 million financing package from the African Development Bank and the Green Climate Fund will support two major projects that aim to develop solar power generation, transnational electricity interconnection and rural electrification in the country.

Exciting News for Renewable Energy in Mauritania! France has taken a significant step in supporting Mauritania's clean energy aspirations by approving a substantial loan of €39.2 million (approximately .4 million) for the development of ten solar power stations, complete with battery storage.

NOUAKCHOTT / DAKAR - December 5, 2025 - Mauritania has moved decisively to position itself as a green hydrogen and renewable energy powerhouse, with fresh announcements this week underscoring an ambitious goal to reach 12.5 million tonnes of green hydrogen output by 2035, backed by new.

Mauritania and France have signed a €39 million financing agreement to develop a hybridization project for ten power plants located in the country's interior regions. The financing agreement was signed by Abdallahi Ould Souleymane Ould Cheikh Sidiya, Minister of Economic Affairs and Development of.

Key Figures & Findings: Mauritania has secured a preferential loan from France to build ten solar power plants with battery storage, a major step in expanding clean energy access across the country. The financing, equivalent to 1.8 billion new ouguiyas, was signed in Nouakchott by Mauritania's.

A \$289.5 million financing package from the African Development Bank and the Green Climate Fund will support two major projects that aim to develop solar power generation, transnational electricity interconnection and rural electrification in the country. Mauritania is set to become a regional.

## China solar power to battery in Mauritania

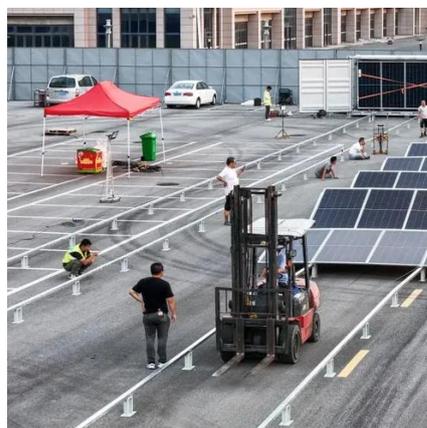

### [Mauritania Advances Energy Security with World Bank Support](#)

The project will finance Mauritania's first large-scale battery energy storage facility, enabling the country to harness its abundant solar and wind resources for more reliable ...

### [France funds 10 solar stations in Mauritania with EUR39.2m](#)

The new solar facilities will be located in various regions across the country and are expected to supply electricity to communities currently underserved or disconnected from the ...

### [Mauritania signs EUR39.2m deal for 10 solar power plants](#)

The funding will enable the development of solar power plants designed to integrate photovoltaic systems with battery storage, aimed at strengthening the reliability and reach of ...

### [Renewable Energy Opportunities for Mauritania - Analysis](#)

This new IEA report - the first focusing on Mauritania - explores the potential benefits to Mauritania of developing its renewable energy

options and includes an analysis of ...
