

Communication 5g base station national ranking

Overview

How big is the 5G base station market?

As market dynamics shift and demand for diverse options increases, the 5G base station market is expected to thrive, with continuous innovation and broader adoption fueling its future trajectory. The global 5g base station market size was valued at USD 22.9 billion in 2024, with a projected growth to USD 20.78 billion by 2033, at a CAGR of -1.1%.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.

Which telecom companies are leading the 5G industry in the United States?

In North America, the United States is making steady progress with telecom giants like Verizon, AT&T, and T-Mobile leading the charge. By 2024, T-Mobile had extended its 5G network to over 300 million people, with Verizon and AT&T following suit in urban areas before expanding to rural regions.

Which companies are partnering with 5G in 2025?

January 2025: Nokia secured a USD 2.3 billion contract with Bharti Airtel for 5G radio access across 17 Indian states. December 2024: Ericsson announced a partnership with Microsoft to pair Azure Edge Zones with 5G base stations for ultra-low-latency industrial use cases.
