The Copenhagen Solar Cooker is a small, compact, inexpensive solar panel cooker made from ... The designer states that the curved shape of the cooker is more stable than typical panel cookers in windy conditions. For best results, the cooker is meant to be used with a dark pot with a glass cover, to reach temperatures of 150 - 190 °C (302 - 374 °F). An oven bag can be used around p... The panels can also be laid flat for use as place mats. Sit a lantern inside to reflect more light a... To purchase a kit for USD 49.99, contact Sharon Clausson.
