Dakar Hybrid Power Station

Senegal Achieves Milestone with Africa's First LNG-to-Power ...

Senegal has successfully launched Africa's first LNG-to-power project, with a floating power plant from Türkiye's Karpowership fleet now producing energy using liquefied ...

IsDB Success Story

The plant has also improved the socio-economic conditions in the region by providing full time employment for well over 100 people, in addition to the hundreds of temporary/contracted jobs ...

Four years in the making: Africa's first LNG-to-power project up ...

As a country with a relatively short oil and gas history and a nascent LNG industry, Senegal has managed to pull off the feat of producing energy from its floating power plant, ...

Four Years in the Making: Africa's First LNG-To-Power Project up ...

On April 29, 2025, a floating power plant operated by Türkiye's Karpowership began generating electricity using liquefied natural gas (LNG) off the

coast of Dakar, Senegal.

Senelec, Karpowership Launch Senegal's First LNG-to-Power ...

Senegal's national utility Senelec and Turkish energy firm Karpowership have officially launched the country's first LNG-to-power project, now generating electricity offshore ...

Four years in the making: Africa's first LNG-to ...

As a country with a relatively short oil and gas history and a nascent LNG industry, Senegal has managed to pull off the feat of ...

Omexom is installing eight photovoltaic solar ...

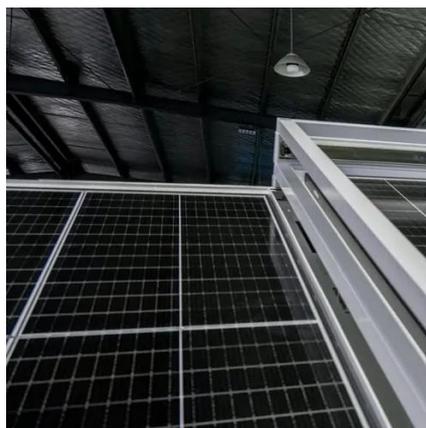

In Senegal, where energy requirements are growing rapidly, Omexom is providing a promising alternative to centralised electricity ...

[Senelec, Karpowership Launch Senegal's First ...](#)

Senegal's national utility Senelec and Turkish energy firm Karpowership have officially launched the country's first LNG-to-power ...

[Huawei Dakar Hybrid Energy Storage Project](#)

Our hybrid inverters bridge solar input, energy storage, and local grid or generator power in containerized environments. With advanced MPPT tracking and intelligent switching, they ...

[Africa's first 100% digital high-voltage electrical station](#)

The project includes five transformer stations and 200 km of high-voltage lines (120 km of overhead lines and 80 km underground), plus the rollout of electrification networks for the ...

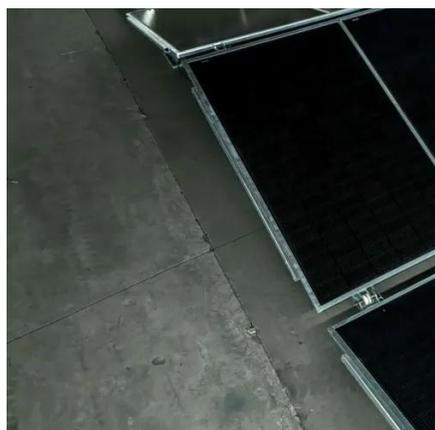

[Solar plants with 60 MW capacity to be built in Senegal](#)

Two solar plants with a combined 60 megawatts (MW) capacity and battery storage will be built in Senegal's southern Casamance region to electrify rural areas, Africa ...

Cap des Biches

Cap des Biches (CdB) is an 86 MW combined cycle facility consisting five HFO fired diesel engines and a steam turbine, located on the Atlantic ...

Omexom is installing eight photovoltaic solar power plants, ...

In Senegal, where energy requirements are growing rapidly, Omexom is providing a promising alternative to centralised electricity supply by rolling out power plants that combine ...

Cap des Biches

Cap des Biches (CdB) is an 86 MW combined cycle facility consisting five HFO fired diesel engines and a steam turbine, located on the Atlantic coast in proximity to Dakar. This Power ...
