How many mobile operators are launching 5G services in 2023?

Network rollout - As of September 2023, 297 operators in 100 markets had launched 5G mobile services. More than 80 other operators have disclosed plans to launch 5G services, many of them in markets across Africa, Asia and Latin America.

What is a 5G base station?

They help fill coverage gaps, improve network reliability, and handle high data traffic. In cities, more than 60% of 5G base stations are small cells, placed on rooftops, lampposts, and building facades. These mini base stations are crucial for delivering consistent 5G speeds in crowded areas like stadiums, shopping malls, and business districts.
