

Does Brussels have more 5G base stations or more communications

Overview

Will 5G be available in Brussels by 2025?

The EU aims for uninterrupted 5G coverage in all urban areas by 2025, but Brussels is far from meeting this target. The report highlights that high-quality 5G, defined by mid-band spectrum deployment, is significantly behind schedule, with Stand-Alone (SA) 5G deployments lagging even further.

Should Brussels accelerate its 5G deployment strategy?

With the EU Digital Decade 2025 targets aiming for uninterrupted 5G coverage across all urban areas and major transport routes, Brussels must accelerate its 5G deployment strategy to avoid lagging behind European leaders.

Does Brussels have the weakest 5G experience in Europe?

MedUX's broader European analysis, set to be published in February, suggests that Brussels has one of the weakest 5G experiences in Europe. The EU aims for uninterrupted 5G coverage in all urban areas by 2025, but Brussels is far from meeting this target.

Is there room for improvement in the Brussels 5G landscape?

The overall scores indicate there is room for improvement in the Brussels 5G landscape. Few states in Europe are likely to achieve a true uninterrupted 5G coverage in urban areas by 2025. Brussels, for example, is the laggard ahead of Digital Decade Strategy targets, recording a 5G Availability of only 36% on average.
