Musashi's Hybrid SuperCapacitor (HSCs) products deliver unparalleled high-power density energy storage to meet the diverse needs of an electrified world with flexible configurations. For over a decade, we have been at the forefront of automated high-volume HSC manufacturing, accumulating valuable.

Jinzhou Kaimei Power Co., Ltd., established in 1996, is based in Jinzhou, China, and is a manufacturer of supercapacitors. As a pioneer in manufacturing supercapacitors, its products range from coin, winding, and combined-type supercapacitors to module and high-temperature supercaps and hybrid.

Ultracapacitors have very high specific power which is largely unaffected by temperature through their operational range. When ultracapacitors are paired with high energy sources, the combined system peak power can increase dramatically. Ultracapacitors have a design life of 10 years at rated.

3-cell DSF & DGH capacitors provide very fast power discharge that cannot be matched by conventional capacitors or batteries. That large capacity makes it possible to support brief power interruptions, supplement batteries, or even be used in place of batteries in many applications. Type MXT Series.

The Super Capacitor Market is witnessing robust growth worldwide as industries

increasingly shift toward sustainable, high-efficiency energy storage solutions. In 2025, global shipments of super capacitors are expected to exceed 1.4 billion units, driven by their growing adoption in electric.
