

# Dublin Communications 5g base station information

## Overview

---

Where is 5G available in Ireland?

Since 2019, several mobile operators have started rolling out 5G networks throughout Ireland. As of October 2020, there are 5G networks available in the major Irish cities and towns (Dublin, Cork, Galway, Wexford, Waterford).

Which GHz band is used for 5G in Ireland?

The 3.6 GHz band is similar to the frequencies currently being used for 4G while 700 MHz was previously used for analogue TV broadcasting. 26 GHz: This higher frequency band is not currently used for 5G in Ireland and is not expected to be deployed for several years.

What is a 5G campaign?

The campaign aims to inform Dublin residents about the benefits of improved digital connectivity, including the safety of 5G technology and the infrastructure supporting it. Who has developed this campaign?

.

Is 26 GHz a good frequency for 5G in Ireland?

26 GHz: This higher frequency band is not currently used for 5G in Ireland and is not expected to be deployed for several years. When it is deployed, it is expected to be used mostly in urban areas. The useful range at this frequency is short (a few hundred meters) so using it in rural areas is not likely to be practical.
