We are progressing a pipeline of projects and acquisitions, including initiatives with our trusted partners, to deliver our 5GWs of renewable electricity by 2030 target and net zero emissions by 2040. Our aim is to develop a pipeline of projects to deliver large scale batteries while also.

Ireland inaugurated the country's 'largest' grid-scale battery energy storage facility, located in Poolbeg Energy Hub. The 75 MW/150 MWh BESS is aimed at enhancing grid stability and facilitating greater integration of renewable energy into Ireland's power network. The project, with an investment.
