

Emergency Energy Storage Power Supply Production in Monterrey Mexico

Overview

April 3, 2025: EnerSys is to close its flooded lead acid battery manufacturing facility in Monterrey, Mexico and switch production to its existing Kentucky plant while expanding capacity in the US and Europe.

April 3, 2025: EnerSys is to close its flooded lead acid battery manufacturing facility in Monterrey, Mexico and switch production to its existing Kentucky plant while expanding capacity in the US and Europe.

The Indicative Program for the Installation and Retirement of Power Plants (PIIRCE), contained in the National Electric System Development Program (PRODESEN) 2022-2036, projects that by that period some 4,505 MW of energy storage systems could be installed in the country. This reflects a

Mexico Energy Partners delivers insights and perspectives on the energy sector to over 10,000 market participants each month. As Mexico's energy sector adapts to changes aimed at diversifying its energy mix and enhancing grid reliability, energy storage is a key component of the energy transition.

Energy transition initiatives have continued to decelerate in Mexico, as the administration of President Andrés Manuel López Obrador (AMLO) favoured backing state-owned enterprises such as national oil firm Pemex and power utility CFE. The reversal in climate change initiatives has seen Mexico's

Recognizing this, in March 2025, Mexico's government announced a mandate requiring all new solar and wind power plants to include storage systems equivalent to 30% of their capacity, with the goal of adding 574MW of batteries by 2028. The limitations of Mexico's current infrastructure are.

READING, Pa. -- (BUSINESS WIRE)-- EnerSys (ENS) (NYSE: ENS), a global leader in stored energy solutions, today announced a strategic manufacturing realignment to enhance operational efficiency and align with the accelerating market shift toward its proprietary higher performance maintenance-free.

EnerSys, a global leader in stored energy solutions, has announced a strategic realignment of its manufacturing operations aimed at enhancing efficiency and aligning with the increasing market demand for its proprietary high-performance,

maintenance-free battery technologies. This move is part of.

Emergency Energy Storage Power Supply Production in Monterrey Mexico

[The Potential For Energy Storage In Mexico](#)

In Mexico, which has abundant solar and wind resources, energy storage facilitates the efficient use of generated renewable electricity. It smoothes out the variability and ensures a stable ...

EnerSys Restructures: Closes Mexico Plant, Expands US Production

As part of this strategic initiative, EnerSys will permanently close its flooded lead-acid battery manufacturing facility located in Monterrey, Mexico. The production activities from ...

[Why Energy Storage Is Mexico's Missing Link](#)

Mexico's energy sector stands at a critical crossroads. While the country boasts immense potential in solar and wind resources, the path to a sustainable and secure energy ...
