□LED Smart Touchscreen□Emoose is the first brand to use the original LED smart touchscreen technology on portable power station, which enables you to operate it as easy as controlling a cell phone, precisely control the power, and putting power mastery at your fingertips. □Compatible with 99%.

Tons of power stations are hitting the market right now. They're great for camping, power outages, and just powering tools around the house. Most of them are heavy and slow to charge. emoose (yes, it's not capitalized) is changing that with their GIGA X1500. With a massive 1502 watt-hours capacity.

emoose power stations supply power to almost all electronic devices, from gadgets like mobile phones, cameras, and laptops to more power-hungry appliances such as portable heaters and refrigerators, electric grills, power tools, and coffeemakers. This means that our power stations fit users' needs.

The Emoose Giga X1500 portable power station meets the needs of users with high power consumption anytime and anywhere. The two handles make the unit easy to transport, and the display allows for easy control and monitoring. With its 600-watt solar panels and 2,400-watt total output, it can provide.

Enjoy ultimate power security and independence during off-grid trips with emoose's power stations – the world's first portable batteries built on modular platform architecture. Using chainable power, two emoose batteries provide up to 3004Wh of continuous charging with its unique Duo Mode. By.

As a new design product,we get many awards since we release this giga serial

product. And you can choose 1200Wh/1500wh/2560Wh LFP or NCM battery cell according to your requirements. And the interface is suitable for all situations. Emoose Whole serial use A EPP material box, not only can protect the.
