

Energy storage at ground-mounted power station in Porto Portugal

Overview

Nestled in the rugged hills of northern Portugal, the Porto Novo Pumped Storage Power Station stands as a marvel of modern energy engineering. Located near the Douro River basin, this facility bridges the gap between renewable energy generation and grid stability.

Nestled in the rugged hills of northern Portugal, the Porto Novo Pumped Storage Power Station stands as a marvel of modern energy engineering. Located near the Douro River basin, this facility bridges the gap between renewable energy generation and grid stability. Think of it as a giant "water."

Porto, Portugal – February 27, 2025 – Eco Wave Power Global AB (publ) (Nasdaq: WAVE) ("Eco Wave Power" or the "Company"), a leader in onshore wave energy technology, is pleased to announce the initiation of critical infrastructure enhancements at its pioneering wave energy project in Porto.

The European Green Deal launched in 2019 established the roadmap for reducing emissions in the EU by at least 55%. which is the main national policy instrument for energy and climate for the coming decade. PNEC 2030 establishes clear goals for scaling up renewable energy capacity. By the end of the.

Eco Wave Power Global AB has achieved a significant milestone in its inaugural Portuguese project by paying half of the grid connection fee for a planned 1MW wave energy power station in Porto. The payment, made to Portugal's national grid operator E-REDES, confirms the company's acceptance of the.

Eco Wave Power, an onshore wave energy technology company, announced another key milestone in the development of its first 1MW wave energy power station in the City of Porto, Portugal. The company has successfully paid the first installment – representing 50% of the grid connection fee – for the.

Vasco da Gama CoLAB is a collaborative laboratory, supported by the Portuguese

Agencies for Science and Technology (FCT) and Innovation (ANI). VG CoLAB was established in 2019 in Porto as a non-profit private association, and the associates include public and private partners from academia and.
