

European manufacturer of 40-foot collapsible containers

Overview

Plastic bulk carriers from ORBIS Europe offer a sustainable, durable, and economically viable solution for modern logistics processes. As reusable transport packaging, they are used in numerous industries, including the automotive industry and manufacturing.

Plastic bulk carriers from ORBIS Europe offer a sustainable, durable, and economically viable solution for modern logistics processes. As reusable transport packaging, they are used in numerous industries, including the automotive industry and manufacturing.

The world's first 5-in-1 40' high cube shipping container that will revolutionize the intermodal shipping industry by providing significant cost benefits, improving empty container repositioning efficiencies, and lowering harmful CO2 emissions. A collapsed bundle of five SeaFold 40' containers.

Plastic bulk carriers from ORBIS Europe offer a sustainable, durable, and economically viable solution for modern logistics processes. As reusable transport packaging, they are used in numerous industries, including the automotive industry and manufacturing. More and more companies are replacing.

The new or used 40ft Collapsible flat container comes standard with a wooden floor and collapsible headboards. These containers are used for transporting special cargo. We easily deliver the container to your desired location throughout the Netherlands. The transport rates depend on the postcode.

How many EURO or FIN palettes will fit into a container?

The 40ft flatrack container with collapsible wall ends is suitable for the transportation of abnormal loads. While the charge might not fit in a standard container, it can still be transported as a container with all the financial benefits.

Container with overlength and an extra heavy-duty floor construction with folding end walls. For the transport of goods with a special shape. Can be loaded from all sides. Note: Due to the design and manufacturer, there may be discrepancies in the dimensions and weights stated here. All data are.

Okay, here's the thing: 40% of container transport on land is empty. At sea it's 20%. Hundreds of Megatons of CO₂ emissions and 25Bn Euro in cost are wasted. This form of global inefficiency has to stop. Right now. We at 4FOLD reduce empty transport in the most significant way. With a foldable.
