This 4-Pole 250A Industrial Circuit Breaker (MCCB) is designed to protect three-phase electrical systems in factories, commercial buildings, and utility installations. With a high breaking capacity of 21kA at 400/415V, it provides reliable protection against overloads and short circuits. The 4-pole.

Circuit breakers are one of the most important electrical safety devices used in homes, offices, and industries. They protect electrical systems by automatically cutting off power when there is an overload or short circuit. Without them, electrical fires, damage to appliances, and electric shocks.

Circuit breakers are electro-mechanical automatic devices that interrupt the flow of excessive current in an electric circuit as a safety measure. Mailing Address
