

Follow-up on the closure of wind power stations in San Diego

Overview

A red flag warning that initially went into effect at 4 p.m. Wednesday expired at 6 p.m. Friday as Santa Ana winds began to subside and some humidity was expected to return to the area, providing relief from fire conditions at least temporarily; another round of the gusty offshore winds.

A red flag warning that initially went into effect at 4 p.m. Wednesday expired at 6 p.m. Friday as Santa Ana winds began to subside and some humidity was expected to return to the area, providing relief from fire conditions at least temporarily; another round of the gusty offshore winds.

Because of the winds, about 7,000 SDG&E customers had their power shut off on Friday. NBC 7's Shandel Menezes was in Alpine, where residents dealt with outages this week. Elevated fire weather conditions that had tens of thousands of San Diego County residents on edge for days began to temper late.

SAN DIEGO (FOX 5/KUSI) — Thousands of people throughout San Diego County are currently without electricity, as several power outages have been confirmed by SDGE. Here is a real-time map of the current power outages throughout the county. Most of the outages in the county were reported between 11.

San Diego Gas & Electric (SDG&E) announced today power has been fully restored to all customers affected by recent Public Safety Power Shutoffs (PSPS). These shutoffs were implemented as an essential wildfire prevention measure in response to unprecedented weather conditions that led to prolonged.

San Diego Gas & Electric (SDG&E) initiated additional Public Safety Power Shutoffs (PSPS) late Thursday into early Friday in response to the return of strong Santa Ana winds and elevated wildfire risk. San Diego Gas & Electric (SDG&E) initiated additional Public Safety Power Shutoffs (PSPS) late.

SDGE's website indicates as many as 58,000 customers could be without power due to the public safety power shutoff. SAN DIEGO (KGTV) — San Diego Gas & Electric has already taken steps to limit fire damage in high-risk areas impacted by the Santa Ana winds. The National Weather Service says San.

San Diego Gas & Electric restored power to customers affected by recent shutoffs

Friday evening. However, planned outages remain active in some communities, including in Vista, Rancho Del Rey, Eastlake, and areas near the Otay Reservoir, as of 10 p.m., according to the . While around 4,500 San. What happened to San Diego Gas & Electric?

January 16, 2025 - 11:30 a.m. Today, San Diego Gas & Electric (SDG&E) restored power to all customers affected by recent Public Safety Power Shutoffs (PSPS). Despite improved weather conditions, our region continues to experience unprecedented and prolonged dry conditions, creating high wildfire risk.

Why is SDGE monitoring the San Diego County storm?

SDGE tells ABC 10News it's been monitoring this event for a week now because of the potential fire danger NWS says this is one of the strongest wind storms it has seen in decades, and that includes the conditions in Los Angeles. According to NWS, this is the driest start to the rainy season in San Diego County in more than 170 years.

Why did SDG &E shut off power?

These shutoffs were implemented as an essential wildfire prevention measure in response to unprecedented weather conditions that led to prolonged high-fire risk. SDG&E recognizes that being without power can be incredibly frustrating and tiring.

How did Orange County Fire crews respond to wind-related incidents?

In Orange County, fire crews also had a busy morning responding to wind-related incidents. Anaheim Fire and Rescue staff rescued two women after a palm tree toppled onto their car near Disneyland, while county firefighters worked to remove a rooftop canopy that became tangled in power lines in Buena Park, according to reporting from OnScene TV.
