

Gaborone to New Energy Station

Overview

GABORONE, Aug. 14 (Xinhua) -- Botswana Power Corporation on Monday signed a power purchase agreement (PPA) with Sinotswana Green Energy, a consortium of Chinese and Botswana companies, to officially launch the southern African country's first 100 MW solar photovoltaic (PV) power.

GABORONE, Aug. 14 (Xinhua) -- Botswana Power Corporation on Monday signed a power purchase agreement (PPA) with Sinotswana Green Energy, a consortium of Chinese and Botswana companies, to officially launch the southern African country's first 100 MW solar photovoltaic (PV) power.

Mmamabula is a planned coal mine and coal-fired power station to the east of the main road and rail corridor in Botswana between Gaborone and Francistown and south of the Serorome River. [1][2] The power station would be near to the village of Mmaphashalala. [3] It is about 130 kilometres (81 mi).

Jindal Africa's has so far injected over P715 million into the Mmamabula Energy Project as the power station and coal mine project slowly takes shape. Officially rolled out in October 2023, the public-private partnership project between Jindal Africa and the government of Botswana aims to bolster.

Delegates of Botswana Power Corporation and Sinotswana Green Energy sign a power purchase agreement (PPA) in the mining town of Jwaneng, Botswana, Aug. 12, 2024. (Photo by Tshekiso Tebalo/Xinhua) Botswana Power Corporation on Monday signed a power purchase agreement with Sinotswana Green Energy, a.
