

# Generator container length 6 meters

## Overview

---

Overall Size: 20' x 8' x 8'-6" (6.06m x 2.44m x 2.59m) Interior Height: 7'-5"  
Capacity: 1,003 cu.ft (28.4 cu.m) For smaller shipments, or if a 40' unit exceeds your site space limitations, you can select an otherwise comparable but smaller 20' unit.

Overall Size: 20' x 8' x 8'-6" (6.06m x 2.44m x 2.59m) Interior Height: 7'-5"  
Capacity: 1,003 cu.ft (28.4 cu.m) For smaller shipments, or if a 40' unit exceeds your site space limitations, you can select an otherwise comparable but smaller 20' unit.

The red area is the maintenance passage required at the generator end, usually about 1-1.5 meters; the minimum size is about 0.5 meters, just enough for people to pass through, and some projects even have it almost close to the inner wall of the container. If space permits, the length for generator.

Our containerized generator enclosures offer unparalleled flexibility, durability, and convenience, making them the ideal choice for various industries and applications. Read on to discover why BMarko Structures is your go-to partner for all your containerized generator enclosure needs. Fill Out.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request. The overall.

Power Capacity: Larger generators require more space for components like fuel tanks or battery banks. Mobility Needs: Standard ISO shipping containers (20ft or 40ft) simplify transportation but limit customization. Ventilation and Safety: Compact designs may compromise airflow, increasing.

This Cummins QSK60 Series Containerized Generators is a fully integrated, robust power generation system that sets new benchmarks in performance, reliability, and efficiency for multiple applications. It is available with many options and can be customized based on your site and application needs.

Factory pre-integrated and customizable per site requirements, the new Cummins

Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design. Developed in-house based on our legacy of technological innovations.
