

Good solar module prices in New York USA

Overview

As of December 2025, the average solar panel system costs \$2.79/W including installation in New York. For a 12.19 kW system (the average system size in New York), this comes out to about \$34,035 before any available incentives, though prices range from \$28,930 to \$39,140.

As of December 2025, the average solar panel system costs \$2.79/W including installation in New York. For a 12.19 kW system (the average system size in New York), this comes out to about \$34,035 before any available incentives, though prices range from \$28,930 to \$39,140.

You'll pay an average of \$34,035 to install a 12.19 kilowatt (kW) solar panel system in New York before any available incentives. Solar panels typically last 25-30 years, generating free electricity and protecting you from rising utility rates for decades. The average New York homeowner will save.

For homeowners in New York, the average cost for a professionally installed residential rooftop solar system typically ranges from \$19,000 to \$35,000 before any tax credits or incentives are applied. This guide will provide a comprehensive breakdown of what that investment includes, the key factors.

Average solar panel installation costs range from \$9,838 to \$28,109 in New York. How much you pay depends on the size of your system, what incentives you're eligible for, your home's sunlight exposure and other factors. Assuming an upfront purchase, it takes about 8.12 years to break even (when).

We go over average solar pricing in New York City. Currently, the national average cost of solar panels is \$2.66 per watt. However, in New York City, the typical cost of solar panels is 4 per watt. The average New York City homeowner needs a 3.9-kilowatt system, which would cost about \$9,951 with.

You'll spend an average of \$12,950 on a 5 kW system in New York, after tax incentives. For New York, you can use \$3.73 per watt to determine the price of a larger system (system size x price per watt x 0.7 to account for tax incentives).
High Power Bills?

How long does it take to see a return on.

The cost of solar panels typically starts at \$20,000. Thanks to the federal 30% tax credit and NY State rebates, your final cost can be much lower, and long-term savings can exceed \$100,000. These are great numbers to look at, but what does it really mean?

Here's a full solar panel cost breakdown.
