What is a 4000A switchboard?

A 4000A switchboard is a type of switchboard commonly used in various industries for low and medium voltage applications. All main switchboard components within 4000A switchboards, including busbars, circuit breakers, and switchgear, are coordinated to work together.

A 1200 ampere (A) circuit breaker is a high-capacity electrical protection device designed to safeguard electrical systems from overloads, short circuits, and ground faults. With the ability to handle substantial current loads, these breakers are essential in commercial, industrial, and large-scale.
