

Hotel Folding Containers

Overview

What is a portable refrigerated storage container?

Portable refrigerated storage containers are meticulously engineered to preserve perishable goods such as food, pharmaceuticals, and medical supplies. With a temperature range from -40°F to 70°F , these containers maintain optimal conditions for your items. Sizes: 10ft, 20ft, 40ft.

Are portable storage containers weather resistant?

MakDaddy's portable storage containers are 100% weather resistant. The roofs are corrugated to allow for optimal durability and water runoff, and the floors are coated for added protection.

What is a insulated & heated container combo?

Our insulated & heated container combo is the optimal solution if you need to maintain your storage items above freezing temperatures. The spray foam insulation also protects the interior from moisture since it prevents the accumulation of condensation.

What is a portable storage container?

A portable storage container is a durable, weather-resistant, and secure container often used for moving, shipping, and storage purposes. These containers are typically made from materials like steel.

Hotel Folding Containers

High Temperature Tote Boxes

These polypropylene totes are chemically resistant to acids, alkalis, oils, and detergents. The tough, smooth surface won't chip and is mildew-proof.
