

How many 5G base stations does Oslo Communications have

Overview

How many 5G stations will Telenor have in 2021?

During 2020, Telenor's 5G network will be opened in Oslo, Bergen, Stavanger and Sandnes. The 5G network in Trondheim, Kongsberg and Bodø will be expanded. During 2021, almost 2,000 base stations will be upgraded. A total of 8,500 base stations will be upgraded within 4-5 years. Just two months after Telenor's commercial launch, Telia followed suit.

Will 5G improve mobile coverage in Norway?

The new 5G network will provide better mobile coverage and gradually better access to broadband across the country, which will reduce the vulnerability of an increasingly digitised society," said Linda Hofstad Helleland. In March 2020, Telenor became the first Norwegian mobile operator to offer 5G connectivity to customers.

How many 5G mobile devices are connected to Telia's network in Norway?

Today, 1.6 million 5G mobile devices are already connected to Telia's network in Norway, with many customers accessing the internet solely through 5G wireless broadband. 5G's Norwegian numbers tell their own story.

Does Telia have 5G in Oslo?

To access Telia's 5G network in Oslo, you need a mobile subscription from Telia and a phone that supports the new technology. However, those in rural areas of Norway may have to wait until as late as 2023 for full national 5G coverage. In September, Ice joined the 5G party with a network launch in Tromsø.
