

# How to connect the neutral line of the battery cabinet

## Overview

---

This manual describes how to install the Powerware 9390 battery cabinet. Read and understand the procedures described in this manual to ensure trouble-free installation. The information in this manual is divided into the chapters listed.

This manual describes how to install the Powerware 9390 battery cabinet. Read and understand the procedures described in this manual to ensure trouble-free installation. The information in this manual is divided into the chapters listed.

UPS power supply two sets of batteries with neutral wire installation steps installation steps; ①Disconnect the existing UPS power supply; (need to arrange an electrician in advance to change the power supply line for the equipment in the computer room) ②Remove the battery pack (it takes 1 hour); ③.

A. Determine the location of the battery switch, the positive and negative directions of the batteries in the battery cabinet, and install the air switch and terminal connectors on the battery cabinet. B. Connect the positive terminal of the battery to the air switch. C. Wrap the battery cables.

One of the first steps to getting the grounding system right is knowing whether to design for a separately derived system, which depends on the detailed arrangement of the bypass neutral. The NEC defines a separately derived system as “a premises wiring system whose power is derived from a battery.

This manual contains important instructions that should be followed during installation of your Vertiv™ Liebert® EXS Battery Cabinet and accessories. Read this manual thoroughly, paying special attention to the sections that apply to your installation, before working with the battery system.

On behalf of everyone at Eaton, we thank you for partnering with us, for trusting us to maintain your business continuity and for preventing downtime at your facility. Our suite of backup power, power distribution and power management products are designed to protect you from a host of threats.

connect the right wire to the battery pack negative. (In this example, the black wire is to the negative pole, red wires are to the positive pole) Then connect the first red wire to the positive of the first series battery, or you can find the connection

point on the nickel strip tha on made and the.

## How to connect the neutral line of the battery cabinet

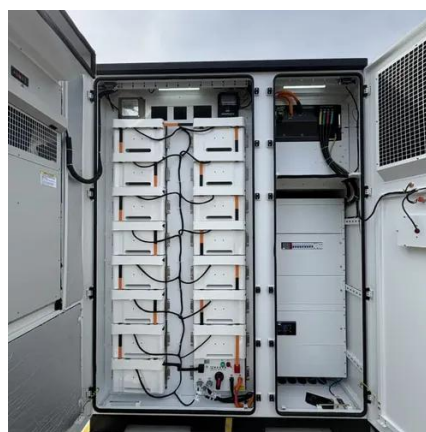

### [Powerware 9390 Integrated Battery Cabinet \(Models IBC-S ...](#)

Route the ground wire (from the field kit) from the ground stud in one battery cabinet, under the lower battery tray and through the cabinet-to-cabinet cable access area in the side of the ...

### [Liebert® EXS External Battery Cabinet Installer/User Guide](#)

For battery cabinets that are connecting to a Vertiv™ Liebert® EXS UPS, see Figure 2.1 on page 8, cables will run from the positive, negative and neutral busbars of the adjacent battery ...

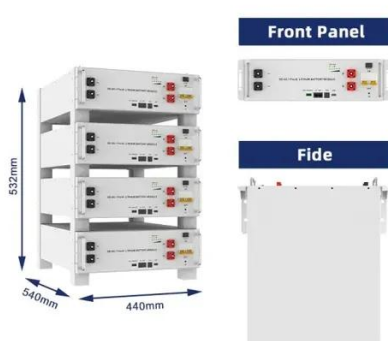

- All In One**  
Integrating battery packs
- High-capacity**  
50-500kWh
- Degree of Protection**  
IP54
- Operating Temperature Range**  
-20-60°C (Derating above 50 °C)
- Intelligent Integration**  
integrated photovoltaic storage cabinet
- Rated AC Power**  
50-100kW
- Altitude**  
3000m(>3000m derating)
