

Huawei ASEAN Power Storage

Overview

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region.

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region.

[Shanghai, China, June 13, 2025] The ASEAN Centre for Energy (ACE) and Huawei have further strengthened their strategic partnership during SNEC 2025, the world's leading exhibition for solar and energy storage. This collaboration continues to focus on accelerating the ASEAN region's clean energy.

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region. The MoU will see the companies explore the design and development.

Energy storage is “essential” to overcome the intermittency of renewable energy sources such as solar power, says Cindy Lim, chief executive officer of Keppel’s infrastructure division. PHOTO: PIXABAY Energy storage is “essential” to overcome the intermittency of renewable energy sources such as.
