

Huawei ASEAN solar Energy Storage Project

Overview

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region.

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region.

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region. The MoU will see the companies explore the design and development.

Energy storage is “essential” to overcome the intermittency of renewable energy sources such as solar power, says Cindy Lim, chief executive officer of Keppel’s infrastructure division. PHOTO: PIXABAY Energy storage is “essential” to overcome the intermittency of renewable energy sources such as.

[Shanghai, China, June 13, 2025] The ASEAN Centre for Energy (ACE) and Huawei have further strengthened their strategic partnership during SNEC 2025, the world's leading exhibition for solar and energy storage. This collaboration continues to focus on accelerating the ASEAN region's clean energy.

Huawei International Pte. Ltd. (“Huawei”) and Keppel Ltd.’s Infrastructure Division (“Keppel”), have signed a non-binding Memorandum of Understanding (MOU) to collaborate on renewable energy solutions, focusing on photovoltaic (PV) systems and Battery Energy Storage System (BESS) technologies. With.

Huawei International Pte. Ltd. and Keppel Ltd.’s Infrastructure Division have agreed to collaborate on renewable energy solutions, focusing on photovoltaic (PV) systems and Battery Energy Storage System (BESS) technologies, Keppel said in a recent press release published on its website. The.

In a bold move for a sustainable future, Huawei and Keppel formed a

groundbreaking partnership to transform energy use in ASEAN data centers. They signed a Memorandum of Understanding to integrate solar and battery storage solutions. These technologies promise major improvements in energy.
