

Indonesia Surabaya Group Energy Storage Project

Overview

Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya, Indonesia Sentinel — Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16, 2025, under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Will Indonesia build a battery energy storage system by 2022?

The agreement was made with other state-owned bodies, such as the Indonesian Battery Corporation, to build the Battery Energy Storage System by 2022. However, no information has yet been revealed about the Battery Energy Storage System's location or specific functions.

Why is Surabaya positioned as a showcase for energy transition?

“For these reasons, Surabaya is being positioned as a showcase for energy transition and building sector efficiency through SETI. We aim to ensure its economic growth goes hand in hand with decarbonization efforts, creating a low-carbon and sustainable urban environment,” she added.

Why should I register for a green energy project in Indonesia?

By registering, you agree with The Jakarta Post 's Privacy Policy Upon completion, the project will provide significant green energy supply for domestic consumption to power green industrial complexes in Riau Province, supporting Indonesia's efforts to drive economic growth and decarbonise key sectors.
