

# Indonesia Surabaya rural glass solar sun room

## Overview

---

Where to install a solar panel in Surabaya or Indonesia?

A PV installer 'near me' like Solar Force can be the best solution, wherever you may be located in Surabaya or Indonesia. The most trustworthy photovoltaic installers 'near me' can help you choose not only the most appropriate solar panels but also the most ideal location for your entire solar panel system.

Is Surabaya a good location for solar power generation?

Surabaya, East Java, Indonesia, located in the tropics, is a very suitable location for solar power generation throughout the year. This is due to its consistent sunlight exposure and tropical climate characterized by wet and dry seasons.

How should solar panels be positioned in Surabaya?

In Autumn, tilt panels to 14° facing North for maximum generation. During Winter, adjust your solar panels to a 23° angle towards the North for optimal energy production. Lastly, in Spring, position your panels at a 2° angle facing North to capture the most solar energy in Surabaya, Indonesia.

What is the average solar energy output in Surabaya Indonesia?

Average 5.58kWh/day in Autumn. Average 5.62kWh/day in Winter. Average 5.88kWh/day in Spring. To maximize your solar PV system's energy output in Surabaya, Indonesia (Lat/Long -7.2484, 112.7419) throughout the year, you should tilt your panels at an angle of 8° North for fixed panel installations.
