

Indonesia energy storage cabinet customization

Overview

Who is PT modular energy Indonesia?

We provide innovative system integration for BESS, PCS, and Advanced UPS. PT Modular Energy Indonesia specializes in integration of innovative energy storage solutions, focusing on battery energy storage system (BESS) and power conversion systems (PCS). BESS Indonesia system integrator.

Will Indonesia build a battery energy storage system by 2022?

The agreement was made with other state-owned bodies, such as the Indonesian Battery Corporation, to build the Battery Energy Storage System by 2022. However, no information has yet been revealed about the Battery Energy Storage System's location or specific functions.

How much solar irradiance does Indonesia receive a day?

Indonesia receives 4.5–6.5 kWh/m²/day of solar irradiance—ideal for solar + battery solutions. Store excess solar energy during the day and use it during night or outages—supporting energy independence and clean development.

Why do Indonesians need solar power?

More than 10 million Indonesians live in off-grid or underserved regions, especially in Eastern Indonesia and smaller islands. Many areas rely on diesel gensets that are costly, polluting, and subject to fuel supply interruptions. Indonesia receives 4.5–6.5 kWh/m²/day of solar irradiance—ideal for solar + battery solutions.
