

Inverter return cabinet

Overview

How much power does a control cabinet inverter have?

Our inverters for control cabinet installation have a power range from 0.25 to 160 kW and can be extended with optional plug-in modules. Variable cooling concepts ensure optimum heat dissipation. Why Inverters for control cabinet installation from NORD?

.

Which inverter is suitable for control cabinet installation?

Installation Installation accessories Installation MOVIDRIVE® system application inverters are exclusively suitable for control cabinet installation according to the degree of protection. Installation accessories Type designation Part number Plastic cover Quantity MDX9_A-0460 - 0750-5_3-. 28243625 MDX9_A-0420 - 0570-2_3-.

Which frequency inverters are suitable for control cabinets?

We have developed the NORDAC PRO family of frequency inverters especially for installation in control cabinets. These inverters are equally suitable for operating synchronous and asynchronous motors and meet all conceivable customer requirements thanks to a wide range of options.

What is a rectifier / inverter system cabinet?

Rectifier / inverter system cabinet of reduced height, populated with inverter modules, "EUE" electronic bypass switch and manual bypass, together with rectifier modules. You get the most economical solution and benefit in the long term from the direct link to BENNING as the manufacturer.
