

# Jamaica Solar Container 350kW

## Overview

---

Is JSS a good solar company in Jamaica?

Jep Solar Solutions (JSS) is committed to being the best choice for solar energy systems in Jamaica. Through them, we can provide guarantee and warranty on the most efficient solar panels, batteries, and other solar equipment. Performance is guaranteed.

How do solar systems work in Jamaica?

In Jamaica, solar systems owners can connect to the electricity grid via a Net Billing, Power Wheeling, or Auxiliary Connections contract. This allows them to have access to the Jamaica Public Service Company Limited (JPS) grid, as per the Electricity Act 2015 and subsequent legislation.

How much power does a PV system share with JPS?

Thank you for the maintenance of the air conditioner and the batteries. Both technicians were very thorough in how they performed their jobs. The PV system has shared with JPS 7.4MWh in just over 365 days compared to 7.5MWh pulled from JPS in 12 years! I'm very happy with the service and my investment.
