

Kyiv Wind Solar and Storage Energy Company

Overview

DTEK was established in 2005. The company includes Pavlohraduhillia, Komsomolets Donbasu coal mine, Skhidenergo and Service-Invest. In 2006, PEM—Energovugillia, Pavlohradska and Kurakhivska CEPs joined in, and in 2007, Dobropilska, Oktiabraska and Mospinska Coal Processing Enterprise.

Will Kyiv's energy storage system reach 27% by 2030?

Kyiv wants to up this to 27% by 2030. Other similar energy storage systems in Eastern Europe include Lithuanian electricity transmission system operator Litgrid's 200-MW units launched in 2023 and a 55-MW battery energy storage system in Razlog in southwestern Bulgaria that went online in 2024.

What are battery energy storage facilities?

Battery energy storage facilities are like a large power bank connected to energy grids, and are crucial for storing energy created by renewables like solar and wind for later use. The share of renewable energy in Ukraine's grid was about 10% before Russia's full-scale invasion. Kyiv wants to up this to 27% by 2030.

Who is ekotechnik Ukraine?

As an experienced team of professionals in the field of solar energy, "Ekotechnik Ukraine" has built more than 3,500 solar power stations in Ukraine, with capacities ranging from 3 kW to 15 MW. Leader NRG Ukraine LLC has been specialized in the installation and maintenance of solar power plants throughout Ukraine for many years.
