

# Large Energy Storage Station Inspection Notice

## Overview

---

What is a battery energy storage inspection checklist?

The Inspection Checklist is intended to be utilized as a guideline for field inspections of residential and small commercial battery energy storage systems. It can be used directly by local code enforcement officers or provided to a third-party inspection agency, where applicable.

When should a battery energy storage system be inspected?

Once all permits to construct the battery energy storage system installation have been issued and the system has been installed, it must be inspected before final approval is granted for the battery energy storage system.

What if I Have Questions about the battery energy storage system electrical checklist?

If you have any questions about the Battery Energy Storage System Electrical Checklist, please email questions to [cleanenergyhelp@nyserda.ny.gov](mailto:cleanenergyhelp@nyserda.ny.gov) or request free technical assistance at [nyserda.ny.gov/Energy-Storage-Guidebook](http://nyserda.ny.gov/Energy-Storage-Guidebook). The NYSERDA team looks forward to partnering with communities across the State.

Where should energy storage system signs be installed?

Approved signs shall be provided on or adjacent to all entry doors to energy storage system rooms or areas, to walk-in energy storage system units located outdoors, on rooftops, or in open parking garages, and on enclosures of energy storage system cabinets. Signs shall be designed to meet both the requirements of this section and of NFPA 70.
