

# Large-scale solar panels in Belize

## Overview

---

That's thanks to a major leap toward energy independence: Belize's first utility-scale solar power plant is officially in the works, which will provide Belize with fifteen megawatts of power. For years, we've relied heavily on imported energy, about half of our power comes.

That's thanks to a major leap toward energy independence: Belize's first utility-scale solar power plant is officially in the works, which will provide Belize with fifteen megawatts of power. For years, we've relied heavily on imported energy, about half of our power comes.

ely 430,191 as of 2022. Its economy is highly dependent on tourism, agricultural exports, and energy imports, making it vulnerable to external economic shocks and fluctuations in interna se gas (GHG) emissions. According to Green Climate Fund (GCF), Belize ranks 8 out of 172 counties for the.

Belize is advancing its transition to renewable energy with the signing of a major power purchase agreement between Belize Electricity Limited (BEL) and Blair Athol Power Company Limited. The deal paves the way for the construction of a 15-megawatt (MW) utility-scale solar plant with a 1.5MW.

Belmopan, Belize, March 17, 2025 - IFC, a member of the World Bank Group, is supporting the Government of Belize in attracting a private investor to build a utility-scale solar plant aimed at improving the country's energy security and affordability for about 20,000 households while also boosting.

Belize Electricity Limited (BEL) and Blair Athol Power Company Limited (BAPCOL) are proud to announce the signing of a landmark Power Purchase Agreement (PPA) for the development of a 15 MW utility-scale solar plant with a 1.5 MW / 3 MWh Battery Energy Storage System (BESS)<sup>1</sup>, which will be located.

There's good news on the horizon for Belizeans; lower electricity bills could be coming soon! That's thanks to a major leap toward energy independence: Belize's first utility-scale solar power plant is officially in the works, which will provide Belize with fifteen megawatts of power. For years.

To help Belize secure energy and affordability, the International Finance

Corporation (IFC), a member of the World Bank Group, is advising the government on a public-private partnership (PPP) project to develop large-scale solar energy solutions. This initiative will help Belize reduce electricity.
