

Latest price of solar panels in Cebu Philippines

Overview

In 2025, a 300-watt peak (Wp) panel starts at about ₱7,068. Panels with higher capacity, around 400 to 500 Wp, range from ₱21,206 to ₱28,274 each. High-efficiency premium panels can cost up to ₱42,412 per unit.

In 2025, a 300-watt peak (Wp) panel starts at about ₱7,068. Panels with higher capacity, around 400 to 500 Wp, range from ₱21,206 to ₱28,274 each. High-efficiency premium panels can cost up to ₱42,412 per unit.

Solar panel systems in the Philippines cost ₱165,000 to ₱1.8 million, depending on size and type (grid-tied, hybrid, or off-grid). A typical Filipino household using 300–450 kWh/month usually needs a 5 kW to 7 kW system, costing ₱280,000–₱460,000 for grid-tied and ₱375,000–₱650,000 for hybrid.

Solar panel prices in the Philippines vary based on property type and other factors. For commercial properties, prices typically range from ₱20,000 to ₱30,000 per kilowatt, while residential installations usually cost between ₱30,000 and ₱50,000 per kilowatt. The cost of individual panels depends.

When you install a solar power system, you're paying for more than just solar panels. Here's a breakdown of the main components that make up the cost — and why each one is worth the investment, especially in a sunny place like Cebu: 1. Solar Panels (40–50% of total cost) Purpose: Capture sunlight.

The cost of a solar installation depends primarily on your system size and household electricity needs. Based on recent, credible market data: Small to Medium Systems (3 kWp): Suitable for small homes or modest daytime electricity usage. Typical grid-tied systems cost ₱160,000–₱180,000.

Solar energy is the power provided by the sun, harnessed through technology called photovoltaic (PV) cells, which turn sunlight directly into electricity. Plus, there's nothing way cooler than powering your entire home using energy from the sun. Our aim is to provide customers with high quality.

The cost of a solar system really depends on how much electricity your home or business uses each month. If your electricity bill is around ₱5,000 or less, a small solar setup might be just right for you. This usually means about six solar panels,

and you'll need around 20 square meters of roof.
