

# Manama solar panels wholesale factory direct sales

## Overview

---

### Where to buy wholesale solar panels?

If you are looking for a place to buy wholesale solar panels, you've found it. A1 SolarStore offers PV modules from all over the world for competitive prices and with fast delivery. Let us tell you a little about the panels that we offer, how we deliver them and what kind of solar panel you might need.

### Do wholesale solar panels come on pallets?

Our wholesale solar panels come on pallets, offering you the perfect wholesale solar panel solution for larger projects or resellers. Whether you're outfitting a commercial property or stocking up for a residential install, these pallets of solar panels provide high-quality performance at unbeatable prices.

### Why should you buy solar panels wholesale?

Solar panels can be very different in terms of cost, and several factors impact the final price, such as wattage, brand, type of panel, warranties, etc. Whatever brand you pick, its solar panel wholesale price is lower than retail, so you end up saving a lot.

### How big are solar panels?

They often have 66/132 cells and their dimensions vary from 39 x 71 to 39 x 77 inches. The majority of home solar systems are installed on the roof. It's only natural: homeowners rarely use roof space for anything else. Larger systems are often ground-based, since massive energy production with powerful wholesale solar panels is a priority.
