

Manila solar Power Storage Project

Overview

A total of 3.5 GWp of solar capacity and 4.5 GWh of battery energy storage systems (BESS) will be installed on the island of Luzon, about 100 km (62 mi) from Manila, across a 3,500-acre site. The hybrid park is expected to produce enough electricity to meet the needs of about 2.4.

A total of 3.5 GWp of solar capacity and 4.5 GWh of battery energy storage systems (BESS) will be installed on the island of Luzon, about 100 km (62 mi) from Manila, across a 3,500-acre site. The hybrid park is expected to produce enough electricity to meet the needs of about 2.4.

UK investment firm Actis has finalised its investment in Terra Solar Philippines Inc, thus taking an equity stake in a GW-scale solar and energy storage project in a deal worth USD 600 million (EUR 550.5m). Image by: Actis. The transaction was sealed with MGEN Renewable Energy Inc, a unit of Manila.

Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS). The project covers circa 3,500 hectares or the equivalent to the size of c.83,300 basketball courts – and is backed by a 20-years, 850MW (for 12-hours daily n average) power supply agreement.

Landmark dev't President Ferdinand Marcos Jr. (center) leads the groundbreaking ceremony of the MTerra Solar Project, the world's largest integrated solar and battery storage facility, last November 21, 2024. Seen in the photo are (from left) Special Assistant to the President for Investment and.

Infrastructure investor Actis has entered a strategic partnership with the companies behind a 3.5GW solar, 4.5GWh BESS project in the Philippines, one of the largest in the world. The firm has agreed to partner with utility Manila Electric Company (Meralco) and its subsidiary, Solar Philippines New.

UK investment firm Actis has finalised its \$600 million investment in Terra Solar Philippines Inc., securing an equity stake in a ground-breaking GW-scale solar and energy storage project. Known as MTerra Solar, this initiative is set to become the world's largest integrated renewables and energy.
