In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius.

With fuel costs consuming 15% of GDP and typhoon seasons intensifying (2023 Cyclone Freddy caused \$200M in grid damage), the island's energy security hangs by a thread. But what if compressed air could store sunshine?

Mauritius has made impressive renewable strides - 40% clean energy penetration as.

Qair International has secured financing for the landmark 60 MWp Henrietta solar project in Mauritius, a move that establishes the country's largest solar and battery storage initiative. The project is scheduled for completion by the end of 2024 and represents a critical step in Mauritius's.

The CEB is committed to further expanding its BESS capacity to meet growing energy demands and support the integration of renewable energy. These efforts are part of a broader strategy to create a sustainable, . In an exciting development for renewable energy in Africa, Qair, an Independent Power.

Paris, August 7, 2025 - Independent renewable energy company Qair announces the closing of a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage system (BESS) project in Mauritius. This project builds upon Qair's long-standing presence in the Indian.

The four projects in the Stor'Sun initiative that Qair won in 2024 are now funded, and will aim to provide a consistent 12-hour energy output. Renewable energy developer Qair has secured financing from SBM Bank (Mauritius) Ltd for its Stor'Sun I and II hybrid solar-plus-storage projects. These two.
