

Montenegro Energy Storage Project Foreign Trade

Overview

State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each designed to deliver 30 MW of power and store up to 120 MWh of energy.

State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each designed to deliver 30 MW of power and store up to 120 MWh of energy.

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55.9 million). EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. Each.

Elektroprivreda Crne Gore, owned by the Government of Montenegro, has held discussions with several companies and financiers from the region, Europe, and the world about its project for battery energy storage systems. Elektroprivreda Crne Gore (EPCG) said in September that it started the.

Montenegro has taken a decisive step toward modernizing its power system with a €48 million investment in large-scale battery energy storage systems (BESS). State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage.

On the occasion of the EU-Western Balkans Investment Forum, held on 13. October 13-14, 2025 at the Palace of Congresses in Tirana, the European Commission (Directorate-General for Neighbourhood and Enlargement Negotiations - DG ENEST), the Montenegrin Investment Agency (MIA), and CWP Europe signed.

Montenegro's state-owned power utility, EPCG, has initiated the preparation of a feasibility study and project design for the procurement of battery energy storage systems (BESS) with a total capacity ranging from 240 to 300 MWh. According to Zoran Miljanić, a member of EPCG's Board of Directors.

EPCG, a utility and distribution network operator (DNO) in the Southeast European country of Montenegro, is looking to add 300MW of BESS to its grid. EPCG, the Electric Power Company of Montenegro, will launch a public tender for the

procurement of 300MWh of battery energy storage system (BESS).
