

Nairobi outdoor power bms manufacturer

Overview

Leading automation and control systems company in Kenya. Specializing in BMS, home automation, industrial control panels, and energy management solutions.

Leading automation and control systems company in Kenya. Specializing in BMS, home automation, industrial control panels, and energy management solutions.

At Unisource, we are passionate about bringing the latest automation technology to large buildings and other facilities. The automation/management systems we offer enable a facility optimize energy efficiency and comfort in buildings, all the while reducing operating costs. Building.

Seamless Process Automation is a leading independent Building Management System BMS company in Kenya. We specialise in effectively controlling buildings so that heating, ventilation and air conditioning (HVAC) are running at peak performance. This reduces energy consumption, optimises comfort and.

Our core business is in automation and we focus on BMS (Building Management Systems), industrial automation by PLC (Programmable Building Controllers), Drives, SCADA (Supervisory and Control Data Acquisitions) Home Automation and GRMS (Guest Room Management Systems). We are Tridium and KNX.

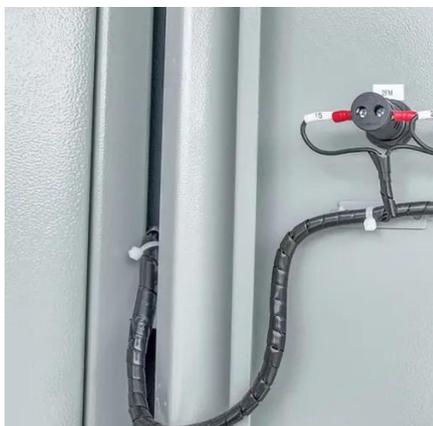

Effective battery management has become increasingly important as portable applications extend into more industries and as the demand increases for small, low-cost products with a long battery life. Nerokas provides industry-leading solutions for today's challenges with battery management.

Unified Security Systems (USS) is one of the best building management system companies in Kenya offering smart BMS solutions to help building or facility managers control all mechanical, electrical, security systems from one place. Managing a modern building in Kenya is not just about keeping the.

The HSC BMS solution is designed to suit building management needs by improving energy efficiency, reducing operational downtime, and maximizing space utilization. This is achieved by integrating heating, ventilation, air conditioning, safety, lighting, plumbing, life safety and access systems into.
